market, and nearly all the transactions originated in the room and represented either the covering of short contracts or speculative operations on the side which, for the time being, afforded an attractive epportunity for quick profits. The short interest at the close of the day was largely reduced and in the most lint. Met. 101.

from last night's close, and all through the forenoon the market maintained an upward tendency, the movement being of the slow and orderly kind, which left the short interest uncertain whether to fight the advance or proceed to cover its contracts. Finally the greater number of shorts elected to follow the latter ber of shorts elected to follow the latter

Around noon, on account of the uncertainty, regarding the Erie dividends, the trading fell off to a very small proportion, but except for a reaction of less than a at the time when the directors of the Eric Railroad were in session, an all-around improvement occurred, which left the final quotations for all the active stocks substantially above last night's closing, and at practically the highest points of the day.

He said: "I have come across a desolate and terrible country, a land seemingly worthless forever—the great American desert. But I believe that the Almighty has created nothing in vain, and as I have passed over this awful region the thought has fixed itself in my mind that, since it is useless for every purpose, it may be a land of vast mineral wealth. If that be so, it will take a hundred thousand miners a hundred thousand years to even prospect it." The recent strike in the Diamondfield district at Goldfield, Nev., has extended the known mineralized region considerably. It is stated by brokers that the low-priced prospects will score larger advances than the high-priced stocks. It is believed that the money that is being disbursed for dividends will come back to the mines in the shape of working capital for prospects.
